5.10 Output range with increment of 10 (Lab 5.0)

LAB ACTIVITY | 5.10.1: Output range with increment of 10 (Lab 5.0) | Full screen | 0 / 9

First, download this template and rename it `range_practice.py`:

- template.py

Write a program whose input is two integers. Output the first integer and subsequent increments of 10 as long as the value is less than or equal to the second integer. Use no prompt for your input.

E.g., If the input is:

```
-15↵
30↵
```

the output is:

```
-15
-5
5
15
25
```

E.g., If the second integer is less than the first as in:

```
20↵
5↵
```

the output is:

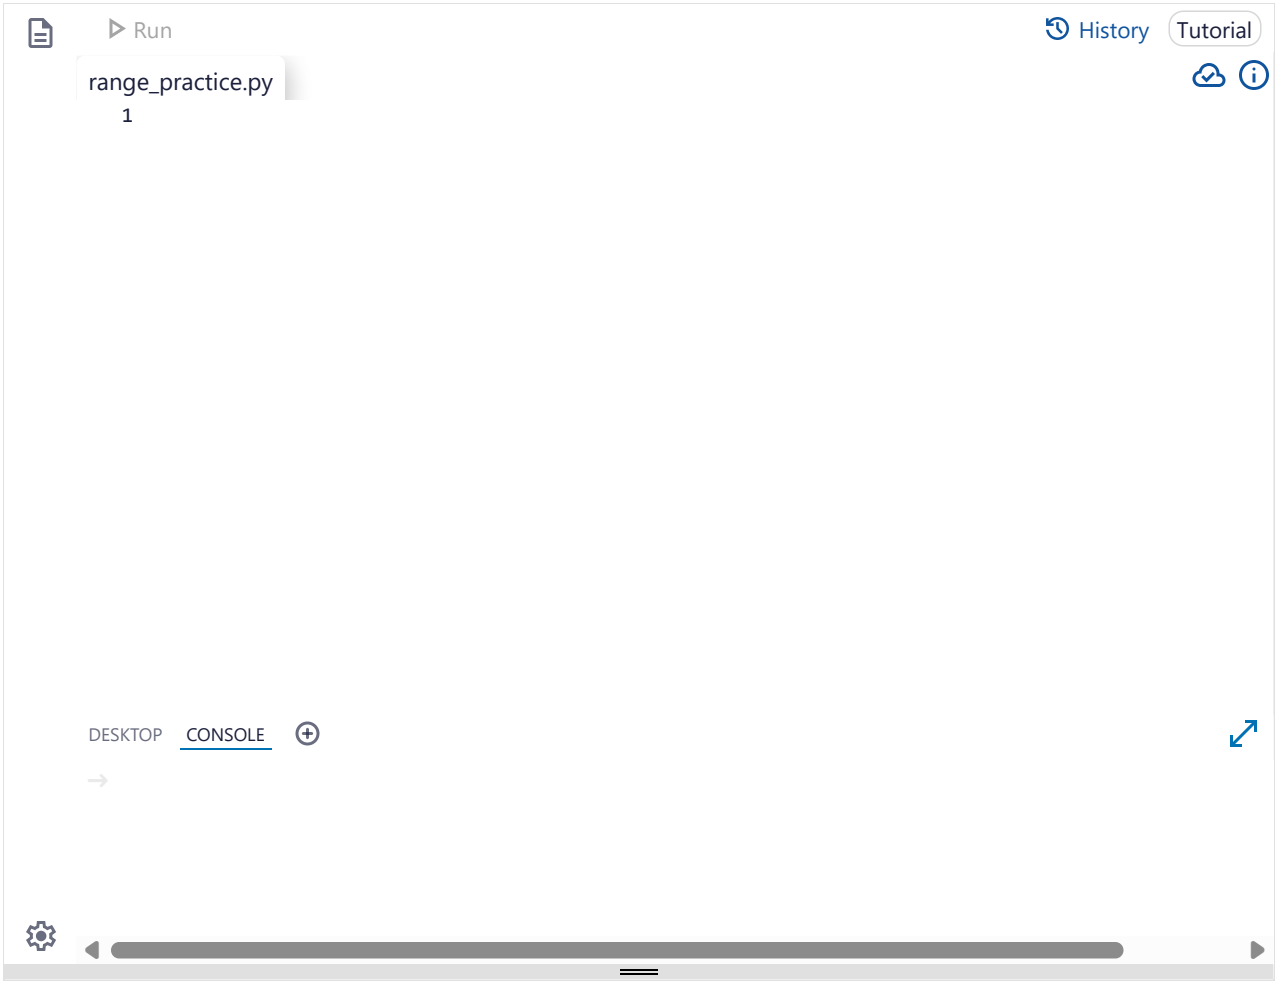

```
Second integer can't be less than the first.
```

Grading

- **90% — Correctness**: Your programs should run as specified.
- **10% — Understandability**: Your programs should be easy to read.

*This is based on a ZyLabs example.
